

CRICKET MATCH TEACHERS VS STUDENTS

02.05.2025

Cricket Match Teachers Vs Students of Class 5, was an afternoon of fun and excitement in JMMS. The day suddenly became cloudy and the children were clamoring to go out. So it was decided to have a fun match. It was interesting to observe that many of the girls are excellent bowlers and later with some training can pursue cricket further. Also it was observed that an interaction between teachers and students on the playground nurtures closer bonds of friendship and understanding.

EARTHIAN

12.05.25

Ms Ridhima from Earthian Science Initiative did a workshop with Class 5 students and taught them how to make bricks out of used small plastic bottles stuffed with 20 poly bags. These bricks can be used to create partitions or walls. This was an interesting activity and children do it at home and is good for utilizing used cold drink bottles and used plastic bags instead of throwing them in the garbage.

UNIT TESTS

05.05.25 to 09.05.25

MOVIE DAY

20.05.25

Students of class 3,4 and 5 along with their teacher watched an inspirational movie in the activity room.

SUMMER VACATIONS

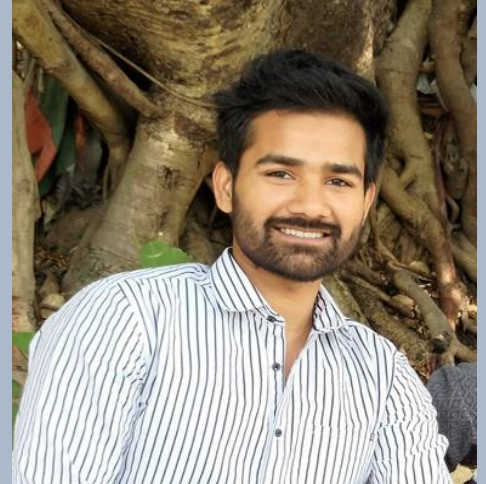

21.05.25 to 09.07.25

SUCCESS STORY

MOHAMMAD ANEESH (BATCH 2005)

Mohammad Aneesh, has a successful architectural practice in Dehradun. His journey began at The John Martyn Memorial School, where he first nurtured his love for drawing and creativity, laying the foundation for his future in architecture.

One of his favourite memories is walking 2 kilometers through forests and fields to reach school, followed by morning prayers and enjoying a warm cup of milk with a handmade protein biscuit. He especially loved the craft weaving sessions during skill development activities, which made learning truly enjoyable.

He fondly remembers the school's serene natural environment, caring teachers, and focus on holistic development, including nutritious meals and skill-building opportunities.

He added that "the values and skills I learned at The John Martyn Memorial School have been instrumental in my journey. I learned to face challenges with calmness and patience, qualities that have deeply shaped my personal and professional growth. The foundation built during those early years continues to guide me today. I am proud to be a part of its legacy".
